

the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association each handler shall pay to the cooperative association on or before the second day prior to the date of payment to producers in lieu of payments pursuant to paragraph (a) of this section an amount equal to the sum of the individual payments otherwise payable to such producers. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association; and

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(c) For milk received from a pool plant operated by a cooperative association or from a cooperative association that is a handler pursuant to § 1137.9(c), each handler shall on or before the second day prior to the date payments are due individual producers, pay such cooperative association for such milk as follows:

(1) A partial payment for milk received during the first 15 days of the month at not less than the Class III price for the preceding month; and

(2) A final settlement equal to the value of such milk at the uniform price pursuant to § 1137.61, as adjusted pursuant to §§ 1137.74 and 1137.75, less payment made pursuant to paragraph (c)(1) of this section.

(d) In making the payments to producers pursuant to paragraphs (a)(2) and (b) of this section, each handler

shall furnish each producer or cooperative association from whom he has received milk with a supporting statement which shall show for each month:

(1) The month and identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to this part;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount, or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

§ 1137.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.138 times the current month's butter price less 0.0028 times the preceding month's average pay price per hundredweight, at test, for manufacturing grade milk in Minnesota and Wisconsin, using the "base month" series, adjusted pursuant to § 1137.51 (a) through (e), as reported by the Department. The butter price means the simple average for the month of the Chicago Mercantile Exchange, Grade A butter price as reported by the Department.

[60 FR 18979, Apr. 14, 1995]

§ 1137.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price to be paid for milk received at a pool plant from producers, in bulk from pool plants operated by cooperative associations, and from handlers described in § 1137.9(c) may be reduced by the amount of the location adjustment applicable at the location of the pool plant at which such milk was first physically received from producers, and the uniform price for producer milk diverted to a nonpool plant shall be reduced according to the

location of such nonpool plant, each at the rates set forth in § 1137.52; and

(b) For the purposes of computations pursuant to §§ 1137.71 and 1173.72 the uniform price shall be adjusted at the rates set forth in § 1137.52 applicable at the location of the nonpool plant from which the milk was received (but not to be less than the Class III price).

§ 1137.76 Payments by a handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to § 1137.30(b) and 1137.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not another order plant to the extent that the equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted milk that are made from nonfluid milk products and which are then disposed of as route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price

and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and the uniform price shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of labeled reconstituted milk included in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant less \$1.00 (but not to be less than the Class III price) and the Class III price. For any reconstituted milk that is not so labeled, the Class I price shall not be reduced by \$1.00. Alternatively, for such disposition, payments may be made to the producer-settlement fund of the order regulating the producer milk used to produce the nonfluid milk ingredients at the difference between the Class I price applicable under the other order at the location of the plant where the nonfluid milk ingredients were processed (but not to be less than the Class III price) and the Class III price. This payment option shall apply only if a majority of the total milk received at the plant that processed the nonfluid milk ingredients is regulated under one or more Federal orders and payment may only be made to the producer-settlement fund of the order pricing a plurality of the milk used to produce the nonfluid milk ingredients. This payment option shall not apply if the source of the nonfluid ingredients used in reconstituted fluid milk products cannot be determined by the market administrator.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1137.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;
